

## QUESTIONS

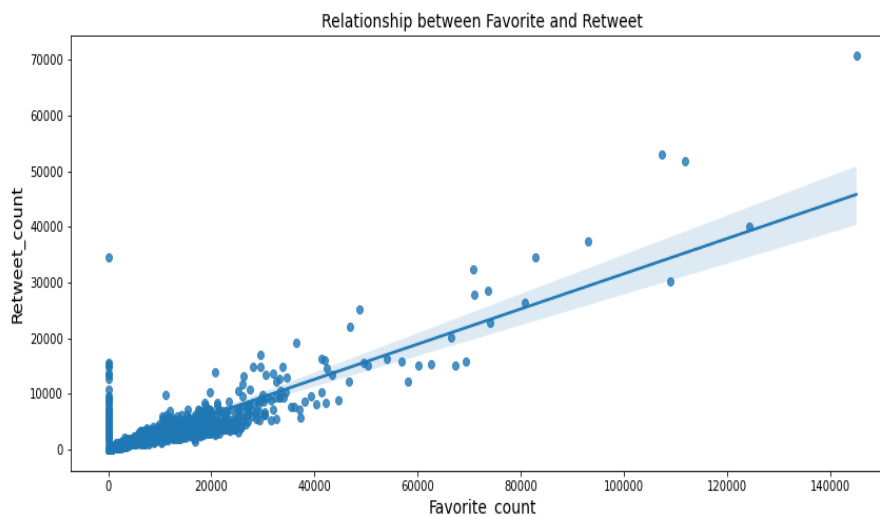

- What are the tweet rates up until August 1st, 2017?
- The relationship between the favorite and retweet count.
- Most popular dog stage.

### 1. What are the tweet rate up until August 1<sup>st</sup>, 2017?

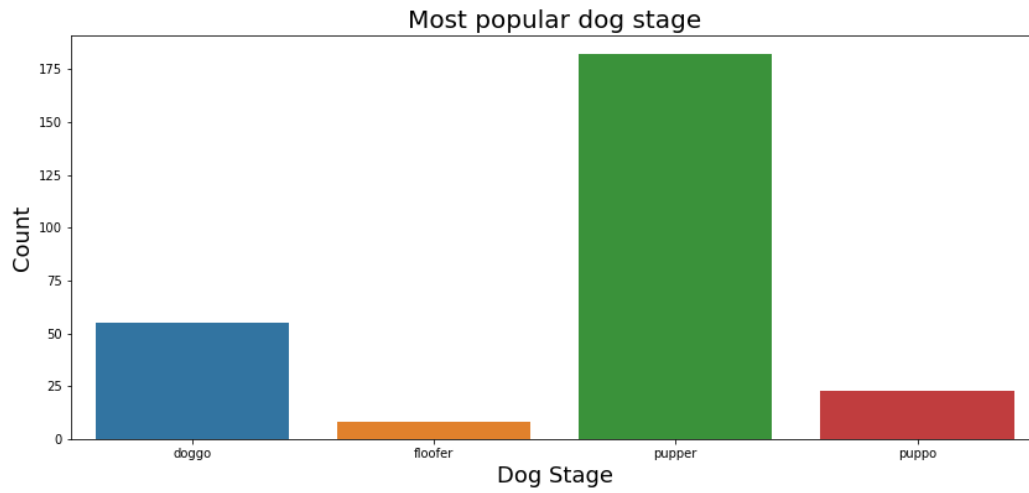

From the chart, it shows that the tweets reduced between January to April and has been declining ever since. This shows that the tweets on that accounts haven't been much like the time it was created.

### 2. The relationship between the favorite and retweet count.

This graph shows that there is a positive correlation between the two data's. The majority of the data lies below forty-thousand favourite\_count and ten-thousand retweet\_count.

### 3. Most popular dog stage

From the graph, we can see that pupper is the most popular dog stage
